1. Types of Information We Collect

In order to better provide you with a mobile application that connects people who need a service with the individuals who have the skills to complete that service, we collect two types of information about our users: Personally Identifiable Information ("PII") and Aggregate Information.

Personally Identifiable Information: This refers to information that lets us know the specifics of who you are. When you engage in certain activities on this App, such as registering for an account, downloading or purchasing a product or service, submitting content and/or posting content in the user forums, or sending us feedback, we may ask you to provide certain information about yourself.

Examples of PII may include your first and last name, email address, mailing address (including zip code), employer, job title and department, telephone number and other identifying information. When ordering products or services on the App, you may be asked to provide a credit card number.

Aggregate Information: This refers to information that does not by itself identify a specific individual. We gather certain information about you based upon where you visit on our App and what other sites may have directed you to us. This information, which is collected in a variety of different ways, is compiled and analyzed on both a personal and an aggregated basis. This information may include the Website's Uniform Resource Locator ("URL") that points to the site you just came from, which URL you go to after visiting our App, what browser you are using, and your Internet Protocol ("IP") address.
